Comprehensive Treatment Center
Opioid Use Disorder Program

OPIOID ADDICTION TREATMENT

WHO WE ARE

Comprehensive Treatment Centers (CTCs) provide medication-assisted treatment (MAT) for adults age 18 and older who are struggling with opioid use disorder. Our services are designed to give people the flexibility to continue fulfilling their daily responsibilities as they work toward long-term recovery. Individualized treatment plans incorporate the use of prescription medication and therapy sessions to help people address the physical and mental aspects of addiction.

939 North Main Street | Wichita, KS 67203
(316) 712-6874 | www.ctcprograms.com/wichita
